Treasure of Galapagos](#)

## SPECIFICATIONS

<b>Category:</b>	First Class
<b>Capacity:</b>	16 Pax
<b>Length:</b>	31.60m
<b>Beam:</b>	11.20m
<b>Speed:</b>	12 knots
<b>Crew:</b>	8 members plus and 1 naturalist guide level III
<b>Equipment:</b>	2 motors 385 HP Caterpillar, 2 Generators 75KW, 3900 g Water Desalinate System
<b>Safety &amp; Navigation:</b>	all equipment according to the international SOLAS standard: 1x 25 and 1 x 20 man life craft, Foruno, 2 GPS, sonar, 2 naval radars, fire detection and prevention systems etc.

## CABINS

1 Ocean View Master Suite with 2 balconies, 8 ocean view Junior Suite cabins with balcony and private bathroom, hot water, air conditioner, security box.

Size suite: 36m<sup>2</sup>

Size standard cabin: 18m<sup>2</sup>

Size each balcony: 2m<sup>2</sup>

### ***Main Deck:***

**Cabin 1:** Ocean View Master Suite with 2 balconies

**Cabin 2,3,4,5:** Ocean view Junior Suite twin cabins with balcony

### ***Upper Deck:***

**Cabin 6, 7:** Ocean view Junior Suite Matrimonial cabins with balcony

**Cabin 8,9:** Ocean view Junior Suite twin cabins with balcony

## SOCIAL AREAS

**Includes:** Accommodation in double cabin, full board, excursions with English speaking guide, snorkeling equipment.

**Not included:** Ticket to/from Galapagos, Galapagos National Park entrance fee USD 100 p/P, Transit Card USD 10 p/P, drinks, tips and personal expenses, wetsuits equipment for rent: USD 45 per 7 days cruise and USD 35 per 5 days cruises.

## **ITINERARY (Subject to change without previous notification)**

### **ITINERARY "A"**

#### **5 D/ 4N**

**FRIDAY:** AM: Transfer Baltra– Seymour port  
PM: Santa Cruz Island: Charles Darwin

**SATURDAY:** AM: Santiago Island: Sullivan Bay  
PM: Bartolome Island

**SUNDAY:** AM: North Seymour Island  
PM: Mosquera Islet

**MONDAY:** AM: South Plazas Island  
PM: San Cristobal Island: Cerro Brujo

**TUESDAY:** AM: San Cristobal Island: Interpretation Center  
PM: Transfer out – San Cristobal Airport

### **ITINERARY "A" DAY BY DAY**

#### **FRIDAY: Transfer in Baltra – Seymour port.**

*PM:* Lunch at noon. Dry landing, hiking, educational visit to the **Charles Darwin Station** (giant tortoises, Opuntia cactus, etc.). Degree of difficulty: easy Duration: 2 hours, dinner at night.

#### **SATURDAY: Sullivan Bay and Bartolome**

*AM: Sullivan Bay:* Breakfast in the morning. This site is of great geological interest is located south-east of Santiago Island, landing it can be done both on the rocky shore (dry landing) or the white sandy beach (wet landing). The length of the trail is 1.5 km approximately.

The area is covered by lava flows Pahohoe type (solidified lava in a wavy or accordion). It was very active in the past 25 years of the nineteenth century. The Sullivan lava was formed in 1897. Flow is very young geologically. The magma formed is flat, but the underground lava movement, rapid cooling and other eruptions led to the break in many places. Difficulty: Moderate Duration approximately 1 hour 30 minutes. Lunch at noon.

*PM: Bartolomé:* Wet Landing, After lunch visit to the Pinnacle Rock beach for swimming and snorkeling.

In the afternoon dry landing to reach the viewpoint of Bartolome. On this island, you can see interesting formations of lava and cinder cones. After a 30 to 40 minutes climbing, a wooden staircase leads to the top of the island where there are beautiful views of the nearby beaches. This island is one of the most visited and photographed because of Pinnacle Rock. Degree of difficulty: Moderate, Duration 1 Hour 30 Minutes. Dinner in the evening.

**SUNDAY: North Seymour – Mosquera**

AM: North Seymour: Breakfast in the morning. Dry landing. On this island you can see blue-footed boobies, colonies of frigates, fork-tailed gulls, terns, sea lions, lava lizards and land iguanas. Palo Santo trees can also be observed. Difficulty: Moderate Duration approximately 2 hours. Lunch at noon.

PM: Mosquera: Wet Landing. The Islet is Located between the islands of Baltra and North Seymour. It is a reef of rocks and coral (the result of an uprising) and a great white sand beach. In most of its perimeter there is basis of lava rocks, as evidence of the wash uprising, except in the southwest side where the landing occurs. This island has one of the largest Populations of sea lions. You can also observe several species of shorebirds. There have been occasional reports at this site of Orcas (Orcinus orca). Degree of difficulty: easy, Duration approximately 1 hour, Dinner in the evening.

**MONDAY: South Plazas – Cerro Brujo**

AM: South Plazas: Breakfast in the morning. Dry landing. This island is full of life. There are colonies of sea lions and land iguanas. While you walk on the banks it is possible to see a great number of birds such as nesting tropic birds and fork-tailed seagulls, but most of all enjoying the beautiful view from the top the steep banks or strolling along the base of the cliff is an extremely pleasurable experience. The Opuntiacactus grow here too and the vegetation changes color according to the season of the year. Paths: easy, duration: 2 Hours. Lunch at noon.

PM: Cerro Brujo: Wet Landing is a beautiful beach of white coral where you can swim and watch birds and sea lions, plus you can snorkel. Located on the north coast of the San Cristobal Island. In the vicinity of the beach you can see seabirds like blue-footed boobies, Nazca boobies, herons, frigate birds and shore birds. Degree of difficulty: easy, Duration approximately 2 hours, Dinner in the evening.

**TUESDAY: San Cristobal – Interpretation Center and TOT**

AM: Interpretation Center-San Cristobal: Breakfast in the morning. Dry Landing. This site is educational information about the evolution of the Galapagos Islands and animal life in the islands. Degree of difficulty: easy. Duration: 1 hour 30 Minutes. Transfer out to San Cristobal’s Airport.

**ITINERARY “B”**

**5 D/ 4N**

- TUESDAY AM: Transfer in - San Cristobal airport  
PM: Cerro Colorado
- WEDNESDAY: AM: Española: Gardner Bay  
PM: Española: Punta Suarez
- THURSDAY: AM: Floreana: Post office Bay  
PM: Floreana: P. Cormorant
- FRIDAY: AM: Santa Fe  
PM: Tortuga Bay
- SATURDAY: AM: Santa Cruz Island: Chato  
PM: Transfer out - Baltra airport

## ITINERARY "B" DAY BY DAY

### TUESDAY: San Cristobal

*AM: San Cristobal* - Transfer in, Lunch at noon.

*PM: San Cristobal - Cerro Colorado*: dry landing. After a bus ride of 45 minutes to reach Cerro Colorado, where you can see giant Galapagos tortoises in a Breeding Center. Degree of difficulty: easy, 2 Hour Approx. Dinner in the evening.

### WEDNESDAY: Española: Gardner Bay – Punta Suarez

*AM: Gardner Bay*: Breakfast in the morning .Wet Landing. Located on the north coast of Española Island. The main attraction is the colony of sea lions, which inhabit the beach in great quantity during the breeding season. Both resident and migratory birds are observed. Degree of difficulty: easy Duration: 2 Hours. Lunch at noon.

*PM: Punta Suarez*: Dry Landing. During the walk on this island you can see sea lions, marine iguanas, blue footed boobies, Nazca boobies, Darwin finches, Galapagos hawks, albatrosses, lava lizards, herons. Degree of difficulty: difficult, Duration: 2 Hours. Dinner in the evening.

### THURSDAY: Floreana: Post Office Bay – Punta Cormorant

*AM: Post office bay*: Breakfast in the morning. Wet Landing. This is one of the few visitor sites, that is visited for its human history. Whaling Captain James Colnett established the wooden post barrel in the early 1793. At the time whaling was a big industry, ships were typically gone for 2 years at a time. The Galapagos Islands were a frequent stop for these ships. Outbound ships would drop off letters after rounding the cape and the ships returning home would mail them.

Over the years thousands of ships have stopped to send and receive mail at Post Office Bay. Many have posted a sign of driftwood or other materials memorializing their visit. This is the only area in the Galapagos where graffiti is still acceptable.  
Degree of difficulty: Easy Duration: 2 Hours. Lunch at noon.

*PM: Punta Cormorant*: Wet Landing, This site has a sandy olivine beach for walking and swimming. The island also has a flamingo lagoon. In addition, white sand beach where sea turtles nest from December to May. Degree of difficulty: easy Duration: 2 Hours. Dinner in the evening.

### FRIDAY: Santa Fe – Tortuga Bay

*AM: Santa Fe*: Breakfast in the morning. Wet Landing. Snorkeling in the rocky coast of the island, to see a variety of fish and sea turtles. You can see colonies of sea lions, land iguanas, frigate birds, Galapagos doves and lava lizards. On the island you can see a forest of giant cacti and Palo Santo trees. Degree of difficulty: Moderate Duration: 2 Hours. Lunch at noon.

*PM: Tortuga Bay*: Dry Landing, interesting walk to the Turtle Bay beach, perhaps the most beautiful beaches in the Galapagos, we can swim and snorkel observing colonies of marine iguanas, pelicans, Darwin's finches, sharks, sea turtles, the incredible forest Giant Cactus, Degree of difficulty: Moderate Duration: 3 Hours. Dinner in the evening.

## **SATURDAY: Santa Cruz**

AM: EL Chato: Breakfast in the morning. Dry Landing. El Chato reserve is divided into two areas; Caseta and Chato. The trail begins at Santa Rosa, 22 km from Puerto Ayora, with the Caseta route being the more challenging. The reserve allows visitors to observe giant tortoises in the wild during the dry season, and is also a good place to spot short-eared owls, Darwin's finches, yellow warblers, Galapagos rails and paint-billed crakes. Degree of difficulty: Easy. Duration: 1 hour 30 Minutes.– Transfer out to Baltra's Airport.

---

## **ITINERARY "C"**

### **7 D/ 6N**

**SATURDAY:** AM: Transfer in - Santa Cruz  
PM: Santa Cruz – Charles Darwin Station

**SUNDAY:** AM: Santa Cruz Island: Ballena Bay  
PM: Santa Cruz Island: Dragon Hill

**MONDAY:** AM: Isabela Island: Tintoreras  
PM: Isabela Island: Humedales

**TUESDAY:** AM: Isabela Island: Punta Moreno  
PM: Isabela Island: Bahia Urbina

**WEDNESDAY:** AM: Fernandina: Punta Espinoza  
PM: Isabela Island: Caleta Tagus

**THURSDAY:** AM: Santiago Island: Puerto Egas  
PM: Rabida Island

**FRIDAY:** AM: Santa Cruz: Bachas – Transfers out Baltra

## **ITINERARY "C" DAY BY DAY**

### **SATURDAY: Santa Cruz**

*AM: Baltra:* Transfer in to Puerto Ayora

PM: Charles Darwin Station: Lunch at noon. Dry landing, activities: hiking educational visit to the Charles Darwin Station (giant tortoises, Opuntia cactus, etc.). Degree of difficulty: easy Duration: 2 hours, dinner at night.

### **SUNDAY: Santa Cruz**

AM: Ballena Bay: Breakfast in the morning. Wet Landing. The visitor site is a cove of green sand at the basis of Ballena Hill on the west coast of Santa Cruz Island. The beach contains a large amount of olivine crystals, the same that originate from volcanic materials. The crystals were formed when the magma was still underground.

Near the beach there are ceramic relics, which reflect human settlements that were close to the beach in 1846. Difficulty: Moderate Duration: 2 hours. Lunch at noon.

PM: Dragon Hill: Dry Landing. The site visit is located in the northwest of Santa Cruz Island, and consists of a path that runs for three different environments in just 1,600 m in length. It gets its name because in 1975, was one of the only places in the Santa Cruz Island where there were land iguanas in healthy state. Difficulty: Moderate Duration: 2 hours

## **MONDAY: Isabela: Tintoreras - Humedales**

AM: Tintoreras: Breakfast in the morning. Dry Landing. The islet is Located south of Puerto Villamil. It has a small bay of calm turquoise waters, where you can appreciate sea lions, sea turtles, marine iguanas, rays, etc. The bay is connected to a crevice of crystal clear water, that's shallow and when the tide is low the entrance closes. you can see how reef sharks swim along with other small fish and sea lions. Difficulty: Easy Duration: 2 hours. Lunch at noon.

PM: Humedales: Dry Landing. The Wetlands is a network of trails, adjacent to Puerto Villamil. There are nine tracks that comprise the following sites: The Wall of Tears, Cerro Orquilla, El Estero, Poza Escondida, Poza Redonda, Tunnel del Estero, Playa del Amor, Bay of Tunis and Pozas Verdes.

The Wetlands are coastal mangroves and brackish water lagoons formed by seepage of seawater and freshwater underground tributaries coming from the upper parts of the island. They are also an important feeding area for the Galapagos penguin and one of the main nesting sites for green turtles.

The wetlands of Isabela Island are essential for the maintenance of biological diversity of Galapagos, as home to several species that depend exclusively on the wetland in order to fulfill their life cycle, flamenco, Bug, stilt, oystercatcher, Gallinula, ghost crab, and fiddler crabs.

Difficulty: Easy Duration: 2 hours, Dinner at Night.

## **TUESDAY: Punta Moreno – Urbina Bay**

AM: Punta Moreno: Breakfast in the morning. Dry landing, Punta Moreno is located on the north coast of Isabela Island. The route of the trail is approximately 2100 meters. The main attraction in Punta Moreno is the coastal lagoons in the middle of black lava flow where there are several species of birds. It has a view of 3 volcanoes, the most actives in the Galapagos; Sierra Negra and Cerro Azul. Difficulty: Difficult Duration: 2 hours, Lunch at noon.

PM: Urbina Bay: Wet Landing, Urbina Bay is located at the base of volcanoes Alcedo and Darwin, west of Isabela Island. Here you can find corals, shells, and many other organisms exposed above the water. This area is also home to large and very colorful Galápagos land iguanas, giant tortoises and the famous population of Alcedo Volcano. Difficulty: Moderate Duration: 2 hours, Dinner in the evening.

## **WEDNESDAY: Punta Espinoza –Caleta Tagus**

AM: Punta Espinoza: Breakfast in the morning. Dry Landing. Punta Espinosa is a jagged promontory of cracked and eroded lava, but the name could also refer to the hundreds of spiny marine iguanas that drape the rocks. Pristine nature under an active volcano and a highlight of any cruise. Flightless cormorants, Galapagos penguins, Galapagos sea lions, waders and the world's largest colony of marine iguanas thrive on the edge of a barren lava flow. Fine stands of mangroves support yellow warblers, Darwin finches, large billed flycatchers, Galapagos hawks and nesting brown pelicans. Difficulty: Moderate, Duration: 3 hours Dinner in the evening.

PM: Caleta Tagus: Dry Landing. The site visit Tagus Cove is located west of Darwin volcano on Isabela Island. The route of the trail is about 1800 meters. This was a favorite place for pirates and whalers, there is observed a tradition that has been maintained since that time: the inscription of the names of boats. At the start of the walk, rising and passing the staircase, there is a small cave where we found inscriptions dating from the 1800s.

Difficulty: Moderate Duration: 2 hours Dinner in the evening.

#### **THURSDAY: Puerto Egas – Rabida**

AM: Puerto Egas - Santiago: *Breakfast in the morning, Wet Landing.* Puerto Egas is located northwest of Santiago Island, fascinating place to visit because it had a great volcanic activity in the past. Puerto Egas is one of the most popular sites in the Galapagos Archipelago. It has a beautiful black sand beach where you can see its many inhabitants as sea lions, chameleons, lizards and herons. Difficulty: Easy Duration: 2 hours Lunch at noon.

PM: Rabida: Wet Landing. Also known by the name of Jervis in honor of a British Admiral John Jervis, Earl of St. Vincent. Rabida is located 5 km south of Santiago Island and is commonly regarded as the geographical center of the Galapagos Islands. It has an area of 4.9 km<sup>2</sup> and a maximum altitude of 367 meters. It has a high iron content, which causes that this place has a distinctive reddish color. Its main attraction is the salt lagoon with flamingoes, pelicans and boobies place where they build their nests. Difficulty: Easy Duration: 1:30 hours Dinner in the evening.

#### **FRIDAY: Santa Cruz**

AM: Las Bachas: *Breakfast in the morning. Dry Landing.* It is a beach about 1 km in length. With white sand beach, deserted and where you can see flamingos, and migratory birds.

In the vicinity of the Las Bachas beach can observe predominant vegetation of the coastal zone. Las Bachas beach represents one of the main nesting sites of sea turtles (Cheloniemydas) on Isla Santa Cruz.

very popular practice of snorkeling, swimming. Difficulty: Easy Duration: 1 hour, Transfer out to Baltra's Airport.

#### **IMPORTANT NOTES:**

- Grade of difficult is considered for and average physical condition, it may vary depending on each individual state.
- Being Galapagos Islands a natural protected area all paths on the visit sites, excluding breeding centers, are not paved and the irregularity as well as the slope of the terrain could fluctuate because of the volcanic origin of the islands.
- The disembarking to the islands takes place with panga boats and they can be either dry or wet.
- Standard docks are not available on disembarking on uninhabited islands because of regulations of Galapagos national park in order to preserve the natural environment.
- Due to the isolated location of the islands, internet and phone communication are limited on the uninhabited islands.
- Payments on board (bar, wetsuit rental, tips and extras) are only accepted in cash.
- Laundry service is not available on board.
- Entrances fees have to be paid in cash, USD \$100 per person for the Galapagos National Park entrance fee (must be paid upon arrival in Galapagos), USD \$10 per person for the INGALA Tourist Control Card (payable at the airport [Quito or Guayaquil]).

### The Bare Essentials:

- **Travel Documents (Passport etc)** - All foreigners are required to travel with their valid and original passport.
- **Day Pack** – it most likely includes extra clothing and other necessities during daily island visits (e.g., sunblock/suncream, camera, glasses, etc).
- **Comfortable walking shoes**(or boots) with good traction – Itineraries could include walking on sharp, hot volcanic lava or hiking on rocky trails.
- **Teva style sandals** – good for hiking on beaches. Keep in mind that several of the landings are “wet landings”
- **Swimming (bathing) suit** – for swimming and/or snorkeling.
- **Light to medium fleece jacket** – It can be anything from windy, wet, misty to cool at times, especially in the late evening.
- **Shorts**–Quick-dry are recommended.
- **T-shirts** –will be used frequently.
- **Hat or cap** – for protection from the sun
- **Sunglasses** – preferably polarized.
