COOPERATION

HOW TO START?

Easy as 1-2-3

First, we will ask for the requirements of your specific event, so as to ensure that we have taken all the necessary details into consideration. After we receive this, we will draw up a tailored service quote that encapsulates your needs.

Our quotes are only valid for a set duration, after which, they no longer apply. During this time, you can review the quote and confirm whether or not it fulfills your needs.

We are always available to discuss your needs and we will diligently work towards a satisfying agreement.
