

SERVICES

WHAT CAN WE DO FOR YOU?

VOLUTION EVENT specializes in two types of services: conference and congress shuttles, and VIP service. Both types have their own unique requirements when it comes to service of the highest standard and with VOLUTION EVENT, you are certain your passengers will receive the experience they deserve.

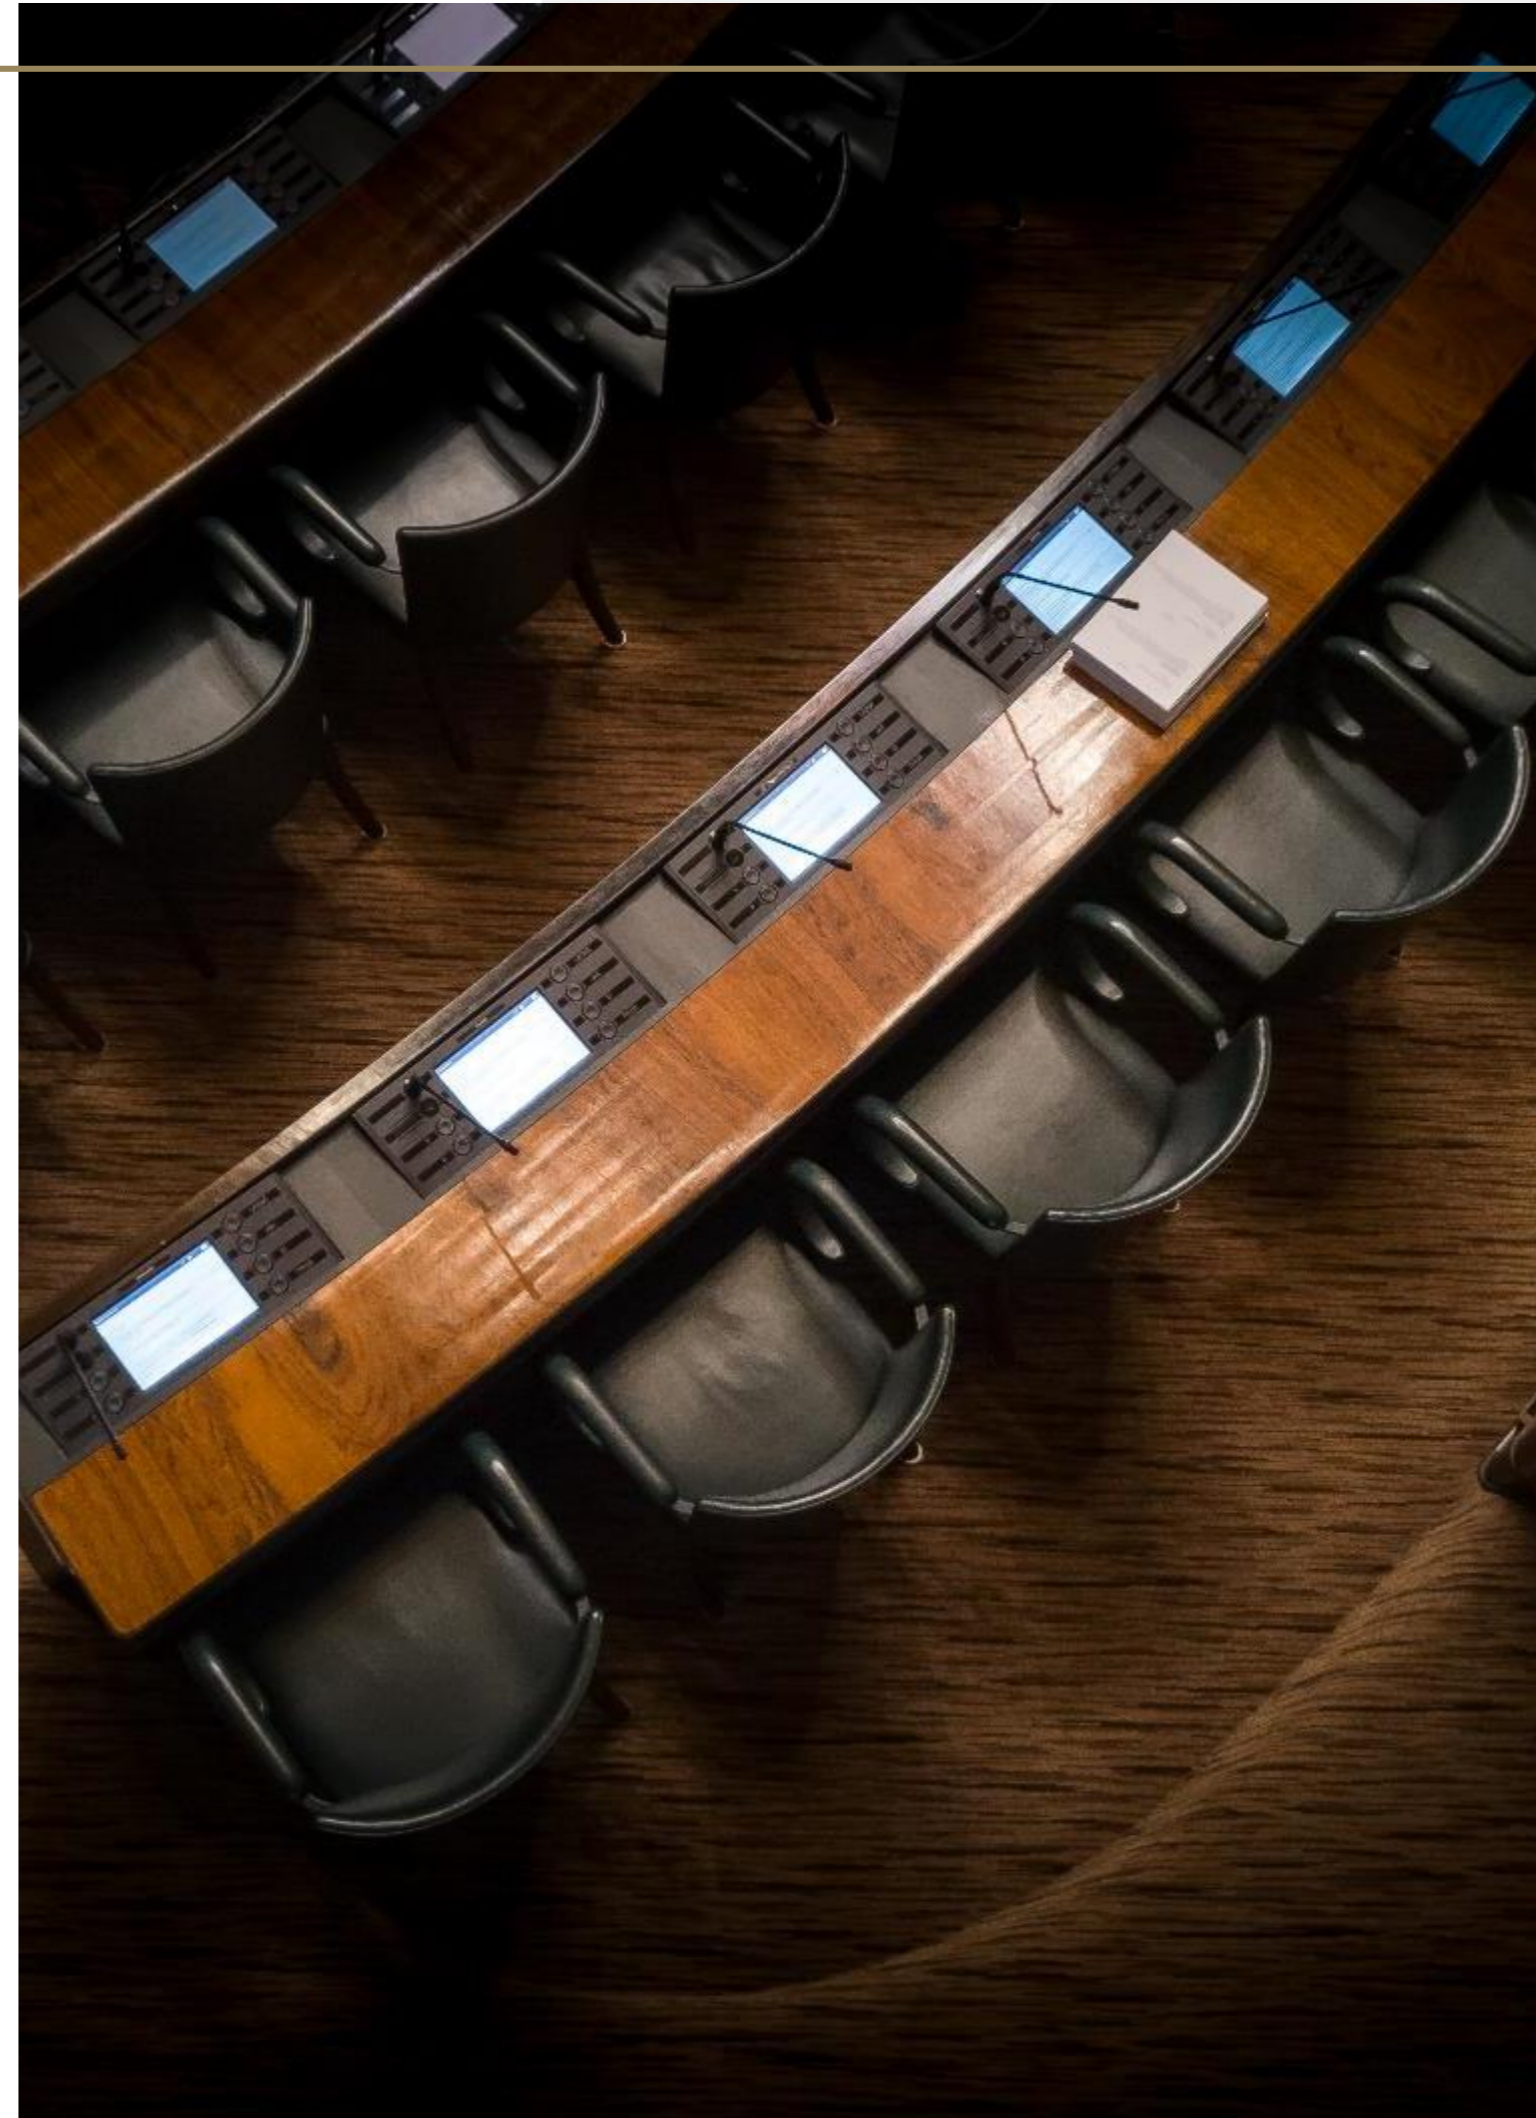

CONFERENCE & CONGRESS

WHAT ABOUT THE BIG EVENTS?

When your group is attending a conference or congress, high demands on organization, timeliness, passenger count, and pickup and drop off locations all need to be met. You will need local drivers who know the streets, passenger lists, onsite coordinators arranging service on location, and clear protocols for any potentially errant passengers.

Our expertise allows you to provide your passengers with timely, convenient and efficient transportation between hotels, event venues and airports.

Shuttle services can be arranged on both per transfer or on an hourly booking basis.

VIP SERVICE

WHAT ABOUT THE SPECIAL CLIENTS?

Certain clients require service above the ordinary, so it is of prime importance that organizers and drivers have an excellent understanding of what makes a high demand transportation service stand out. With VOLUTION EVENT, you can be certain that your client will experience the feeling of an exceptional service with drivers, vehicles and organization that goes above and beyond.

Whether it's hourly service within a city or daily service for a prolonged period between different cities or countries, regardless of whether your clients travel for business or pleasure, we will ensure their highest satisfaction.

VIP service is provided on an hourly booking basis, and can be arranged per half day, full day and 24/7 basis, depending on the needs of the client. If required, driver accommodation shall be arranged.

TYPES OF VEHICLES

WHAT'S ON OFFER?

With services as widely varied as those required in the event industry, a range of vehicles needs to be available for the end passengers, ensuring optimal service and satisfaction.

With VOLUTION EVENT, you are assured access to the highest black car standards within the industry.

SEDAN

The most common black car in the industry, yet certainly never lacking in exclusivity, is the Sedan class. At VOLUTION EVENT, you will be provided a Business Executive sedan, an upscale limousine that is both elegant and comfortable.

The exact model depends on the market, the most popular being the Mercedes E-Class in Europe and the Cadillac XTS in North America. Vehicles come in black, with the main exception of the UK market, where silver is the market standard.

Suitable for 2 passengers including 2 pieces of luggage.

PREMIUM SEDAN

The pinnacle of luxury, the Full Size Luxury Car will ensure your clients feel just as appreciated as anyone would be when treated with the best service available. Exclusive and comfortable, yet discrete with a luxury interior, this vehicle is certain to provide your clients with a superior experience.

The exact model depends on the market, the most popular being the Mercedes S-Class in Europe and North America. Vehicles come in black, with the main exception of the UK market, where silver is the market standard.

Suitable for 2 passengers including 2 pieces of luggage.

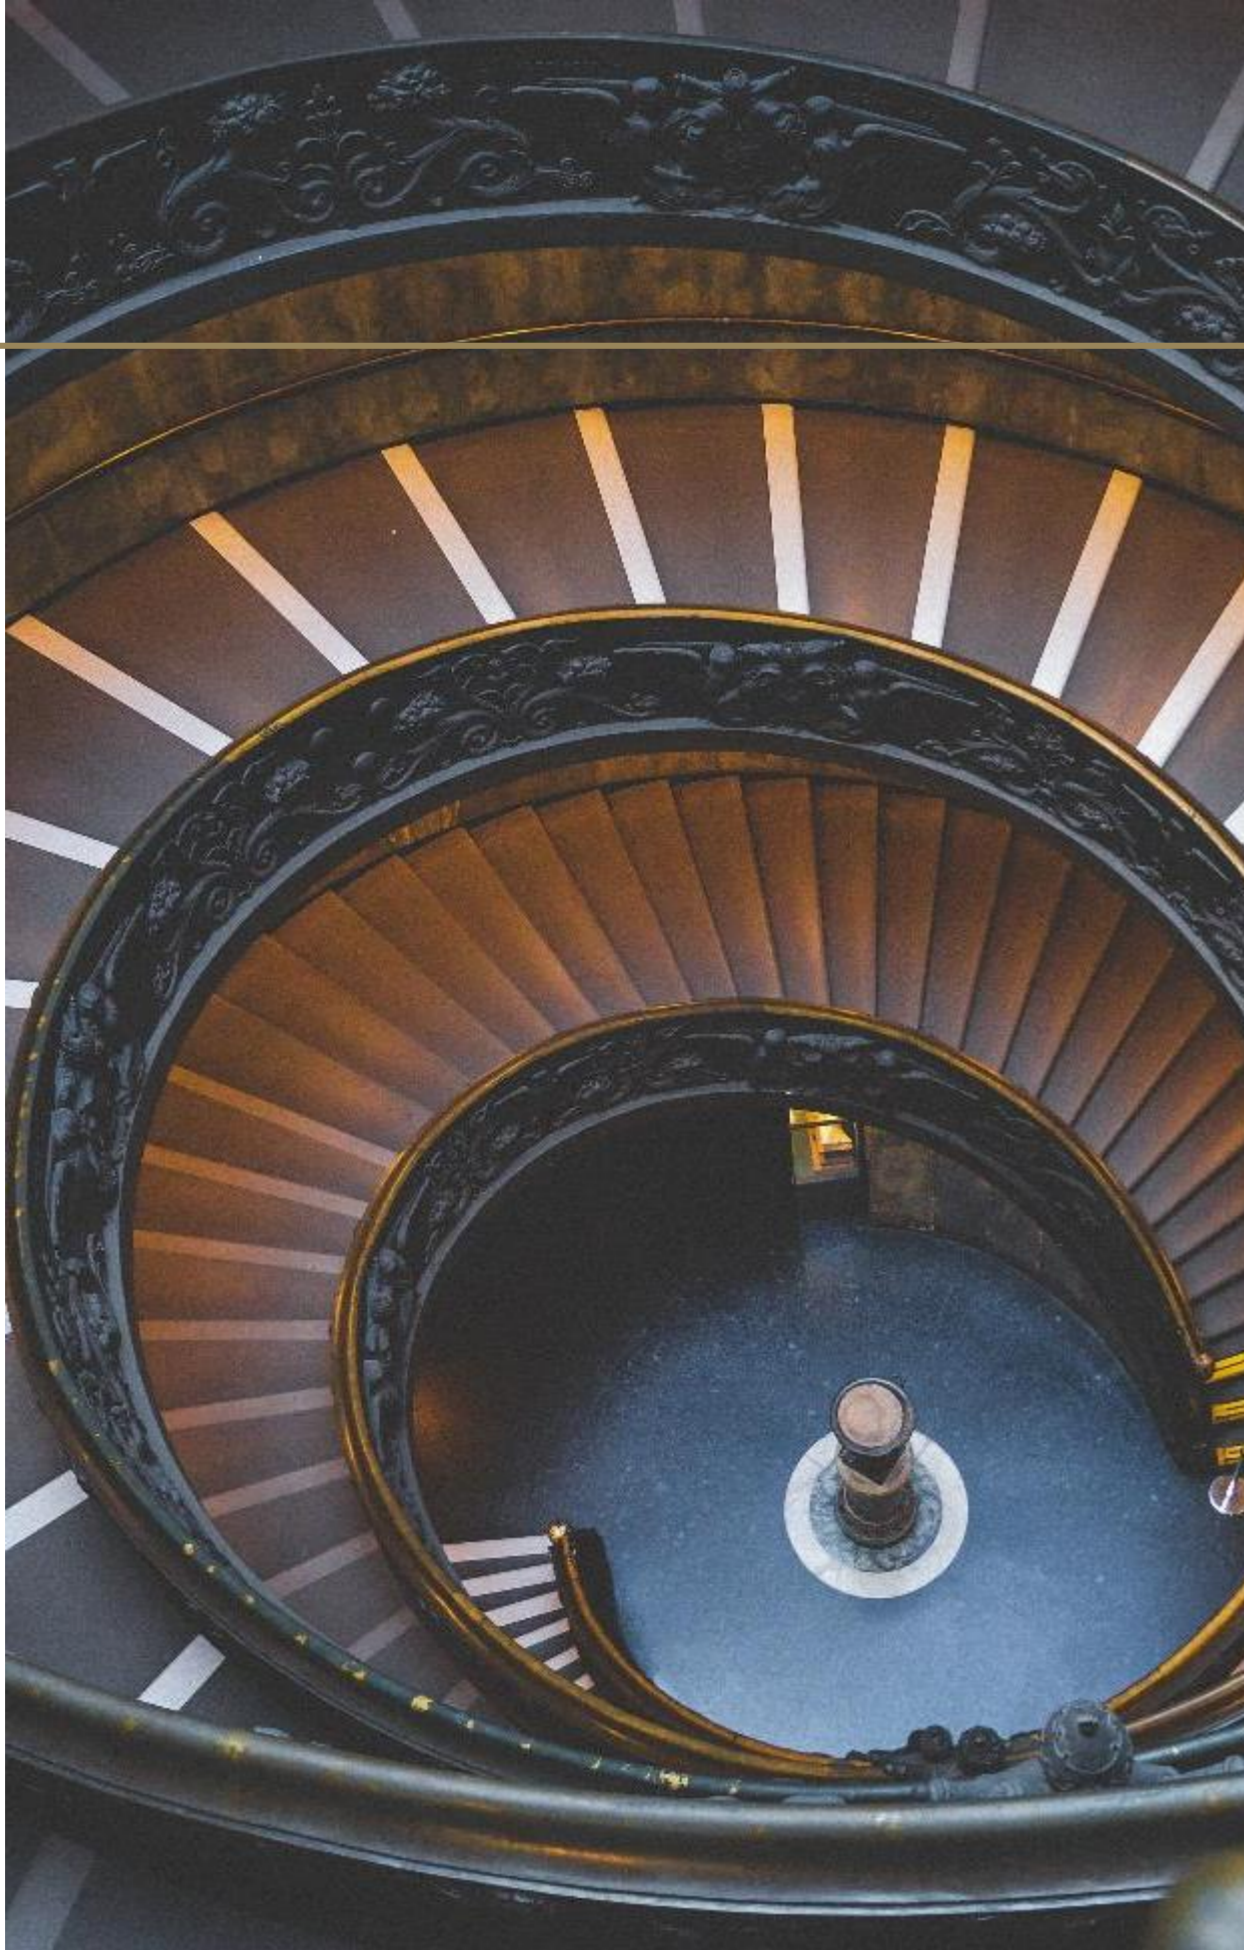

VAN

When one considers the varied needs of the event industry, certain occasions undoubtedly call for larger vehicles. During these special events, the need for larger vehicles will be met by VOLUTION EVENT providing a luxuriously outfitted Multi-Personnel Van. The larger size of these vehicles does not take away from their ability to fulfill your passengers' expectations for style and comfort.

The exact model depends on the market, the most popular being the Mercedes V-Class in Europe and the Chevrolet Suburban in North America. Vehicles come in black, with the main exception of the UK market, where silver is the market standard.

Suitable for 5 passengers including 5 pieces of luggage.

QUALITY OF SERVICE

HOW TO DECIDE?

There are many aspects that determine the quality of a product or service, especially one as complex as organizing event transportation.

First of all, the driver attending the client must be trained and experienced in the art of serving, being able to meet the spoken as well as unspoken expectations of the client. Following this, their driving skills must be unmatched and their appearance impeccable in terms of professional attire and presentation.

Secondly, the vehicle must be presented in pristine condition for every new ride. Along with being clean, vehicles are not to be older than a maximum of a few years, meaning the fleet must be regularly renewed.

Thirdly, the organizing of transport must be executed impeccably. Pickup and drop off locations need to be perfectly scouted and coordinated, the need for Meet & Greeters evaluated and dedicated onsite coordinators ready to take care of any last minute requirements.

With the expertise and dedication of VOLUTION EVENT, you can rest assured the needs and requirements of you or your clients will be met with the attention and care your event requires.

REACH

WHERE CAN WE HELP YOU?
